Profile

M2 student in *Artificial Intelligence for Connected Industries* at CNAM Paris. Passionate about AI and the theory of languages, with a perfectionist, detail-oriented mindset. Multilingual (Arabic, French, English, Polish). Long-term goal: pursue a PhD to deepen research in AI and contribute to ambitious projects across academia and industry.

Education

CNAM Paris — Master's in AI for Connected Industries (M1 completed, currently M2) 2024–present

USDB University — Bachelor in Computer Science and Mathematics, with Honors (Good) 2020–2023

Baccalaureate in Mathematics 2019–2020

Professional Experience

Research Internship — LVMT Lab, ENPC Paris-Saclay Mar.–Aug. 2026
Developed DEMI, a digital twin platform for EV charging infrastructure (Cloud-Edge-IoT); designed data pipelines and dashboards using FIWARE/NGSI-LD, CrateDB, Python, and Docker.

Summer Internship — CNAM Paris (Linux USB Gadgets) 2025
Developed USB gadget drivers (HID, mass storage), configured networking, optimized systems; strengthened embedded Linux & low-level programming.

Translator — Embassy of Poland 2024
Translation & interpretation (Arabic–French–Polish–English) for official documents and meetings; facilitated communication with local partners.

Web Platform for Lab Room Management (academic project) — HTML, CSS, JavaScript, PHP, SQL 2023
Full-stack platform for lab allocation, supervision, and staff management; centralized workflows and improved visibility.

Markov Chain Visualization (academic project) — Java, SQL 2022
Interactive matrix/automata input & visualization enabling clearer analysis of states and transitions.

Pharmacy Management Software (academic project) — Java, SQL 2022
Desktop app with inventory, billing, and staff modules; streamlined daily operations via intuitive UI & reliable data handling.

Technical Skills

Programming: Python, Java, C, Bash, C++, JavaScript, PHP, SQL, HTML/CSS, XML, MATLAB

AI & Data: Machine learning, statistics, probabilities, linear programming

Systems & Networking: Embedded Linux, networking, USB gadget drivers

Software & Infrastructure: Docker, FIWARE/NGSI-LD, CrateDB, Git/GitHub, OOP, web/mobile development

Languages

Arabic (native), French (native), Polish (native), English (professional working proficiency)

Achievements & Interests

Former Rubik's Cube solving champion (avg. 23s). Interests: Photography, Chess, Judo.
